

ANTI-ACNE TREATMENT PROTOCOL

Step 1:

HYDRODERMABRASION with Z-SalicPure or HydroClear Serum

Use clear tips and moderate vacuum suction to gently exfoliate and refresh the skin.

Step duration: 10 minutes

Step 2:

No-Needle Electroporation with Vitamin C Infusion serum

Step 3:

Oxygen Infusion with brightening serums and boost collagen production.

Add 3-5ml of the Z-LuminOxy to the oxygen gun container. Perform the Oxygen Infusion facial using slow circular motions. Step duration: 5-8 minutes

Step 4:

Cold Application

Step 5:

After treatment is complete apply moisturizer and sunscreen.
