

PPP

Positive Pulse Pressure - The unique "PPP" Technology.

Zemits Positive Pulse Pressure Facial Sculpting is a unique treatment that complements the signature HydroVerstand Facial. Triple actions in one treatment:

1. Positive Pressure: to stimulate lymph and blood circulation and remove the puffiness
2. Pulse Sculpting of the skin soft tissues
3. Pressure Holistic Infusion of the serum into the dermis

Zemits HydroVerstand has two specific oxygen wands and Y-shape oxygen hose that delivers powerful oxygen flow. This treatment is very refreshing and exciting, the majority of clients truly enjoy their experience. A stream of serum flow infused with vitamin, mineral, and nutrient extracts is applied to the face and neck.

The serum infuses the moisturizing agents into the skin for a smoother, plumper look, providing a healthy glow. The oxygen facial is a popular treatment to indulge in prior to a big event, and it can be performed on all skin types.

These amazing treatment is designed to nourish the skin and stimulate healthy glow.
