

SAFE FOR PREGNANCY FACIAL PROTOCOL

Step 1:

HYDRODERMABRASION with HydroClear Serum

Use dual diamond moderate vacuum suction to gently exfoliate and refresh the skin.

Step duration: 10 minutes

Step 2:

Oxygen Application to deeply infuse serums and boost collagen production. Add 3-5ml of the HydroWonder Serum to the oxygen gun container. Perform the Oxygen Infusion facial using slow circular motions.

Step duration: 5-8 minutes

Step 3:

Apply moisturizer and sunscreen SPF 40.
