

ZEMITS SERUM APPLICATION

Serum application treatment helps to speed up the metabolism of skin cells.

This treatment allows for infusing the skin with immense hydration and restoration. It provides deep skin hydration with an intense flow of Serums to stimulate skin turnover, boost collagen production, increase skin elasticity, and infuse skin with minerals and vitamins.

Benefits:

- Increased youthful skin appearance
- Smoother skin and even tone
- Accelerated skin hydration
- Brighter skin complexion
- Soothing treatment post fluid dermabrasion

This treatment step is performed with one of the Zemits Infusion Serums, based on the skin needs:

- Skin Repair and Boosting serum Zemits OXYTIGHT
- Skin Brightening serum Zemits LUMINOXY
- Skin Revitalizing serum Zemits REVITAOX
- Vitamin C serum Zemits VITALUSTER
